Eligible to work in Denmark

PROFILE

IT Consultant and Business Analyst with four years of experience in digital transformation, primarily within banking and financial services. Experienced in requirements analysis, functional specifications, SIT/UAT, system implementation, and stakeholder coordination. My background spans engineering, international sales, financial management, IT consulting, and data analytics, reflecting my curiosity and ability to learn and adapt across disciplines. Alongside a full-time consulting role, I completed my Master's degree in Management with a concentration in Finance, graduating cum laude (GPA 3.94/4.00). I enjoy taking on new challenges and working collaboratively across business and technical teams to turn complex problems into practical solutions.

PROFESSIONAL WORKING EXPERIENCES

PT Synpulse Indonesia Management Consulting, Indonesia

Consultancy company delivers large-scale IT transformation projects for leading Indonesian banks in agile, multicultural teams.

Consultant **Jan 2024 - Apr 2025**

- Managed the Finance module during an end-to-end Avaloq migration by coordinating business stakeholders and developers, translating business needs, developing functional specifications (FSD/FRS), tracking project progress with Jira, and supporting successful production deployment with the fewest production tickets among seven parallel teams.
- Implemented a resource allocation tracking system by developing an Excel-based workload tracker, providing 100% workload visibility and improving chargeability forecasting.
- Led post-go-live production issue resolution as Project Management Officer by coordinating issue prioritization and developer follow-ups, reducing open tickets from over 100 to 4 tickets within two months.
- Led the execution of *The Tech-Powered Future of Indonesia's Wealth Management* event by coordinating stakeholders and executive participation, supporting Avaloq's business development efforts.

Associate Consultant **Aug 2021 - Dec 2023**

- Gathered business requirements through close collaboration with stakeholders and translated them into functional and technical specifications documented in Jira, enabling developers to deliver Avaloq solutions aligned with business needs.
- Managed test execution by designing 23 test documents covering over 100 scenarios and coordinating System Integration Testing (SIT) and User Acceptance Testing (UAT) with business users and developers, ensuring solution quality and data accuracy before production deployment.
- Developed user guides and test cases as well as delivered Train-the-Trainer workshops by demonstrating system functionalities, supporting user adoption of newly implemented Avaloq features.
- Supported project delivery by contributing PL/SQL code and SIT documentation for five business requirements despite limited development resources, accelerating feature implementation.

PT Haldin Pacific Semesta, Indonesia

B2B manufacturer of natural ingredients serving international markets.

International Sales Manager **Apr 2020 - Aug 2021**

- Analyzed customer demand and expanded global client outreach by identifying new export opportunities and strengthening customer relationships, increasing annual product revenue by 42% in 2020, acquiring 12 new international accounts, and enabling market entry into Portugal.
- Collaborated with the R&D team to develop and launch three derivative products by expanding existing raw materials into new product offerings, generating an additional 17% of 2020 revenue.
- Coordinated production scale-up from 200 to 500 tons annually by aligning sales forecasts with production planning, ensuring capacity met growing customer demand and supporting on-time deliveries.

International Sales Supervisor **Apr 2019 - Apr 2020**

- Analyzed sales performance, production data, and over 5,000 monthly export transactions using Excel PivotTables to identify growth opportunities, optimize inventory planning, and support pricing decisions.
- Developed data-driven sales strategies with the Sales Manager by analyzing sales trends, customer potential, and competitor pricing, increasing annual product revenue by 47%, reducing deadstock, and making the department the second-largest revenue contributor in 2019.

VOLUNTEER EXPERIENCES

Events Team | International Dual Career Network (IDCN) Copenhagen, Denmark **Sep 2025 - Present**

IDCN is a global non-profit association supporting the professional integration of partners and spouses of international employees. IDCN Copenhagen is led by the University of Copenhagen in collaboration with corporate partners.

- Led the planning and execution of events by coordinating agendas, registrations, venue logistics, and event timelines, strengthening member engagement and organizations presence in Denmark.
- Developed IDCN's LinkedIn branding guidelines by creating content templates and communication standards, improving consistency across committee social media content.
- Updated IDCN's handbook by refining committee responsibilities and standardizing documentation, improving organizational processes and procedures.

Store Assistant | Røde Kors Lyngby Butik, Denmark **Aug 2025 - Present**

Røde Kors (Red Cross) butik is a second-hand store operated by the Danish Red Cross, where proceeds support humanitarian projects and the organization's operations.

- Support daily store operations by operating the cashier, preparing donated items for sale, maintaining product displays, and assisting customers in Danish, contributing to efficient store operations and customer service.

Stage Manager Volunteer | TechBBQ 2026 Event, Denmark **Aug 2026**

TechBBQ is the Denmark's and Scandinavia's largest annual startup and innovation summit.

- Supported the 'Tech Stage' operations by coordinating speakers, managing transitions between panel discussions, and racking approximate attendance for each session.
